

TOPS TECH Task 5 (CS)

Task-5 Google Hacking Technique

1. **Use Google search operators to find publicly accessible PDF files about IPL cricket rules. List the exact search query you used and share 3 working links you found.**

Ans:

Use Google search operators to find publicly accessible PDF files about IPL cricket rules.

Objective:

- To use Google Dorking techniques to locate publicly accessible PDF documents related to IPL cricket rules and playing conditions.

Google Search Query Used:

- filetype:pdf "IPL" "rules"

Alternative Query:

- filetype:pdf site:iplt20.com "playing conditions"

⇒ The operator filetype:pdf restricts the search results to PDF documents only. The keywords "IPL" and "rules" help identify documents specifically related to IPL regulations and playing conditions.

Three Working PDF Links Found:

- TATA IPL 2026 Match Playing Conditions (PDF)
https://documents.iplt20.com/bcci/documents/1774265031558_TA_TA_IPL_2026_Match_Playing_Conditions.pdf
- IPL 2025 Code of Conduct for Players and Team Officials (Alternative Official URL PDF)
https://documents.iplt20.com/bcci/documents/1742708207275_Co_de_of_Conduct_for_Players_&_Team_Officials.pdf

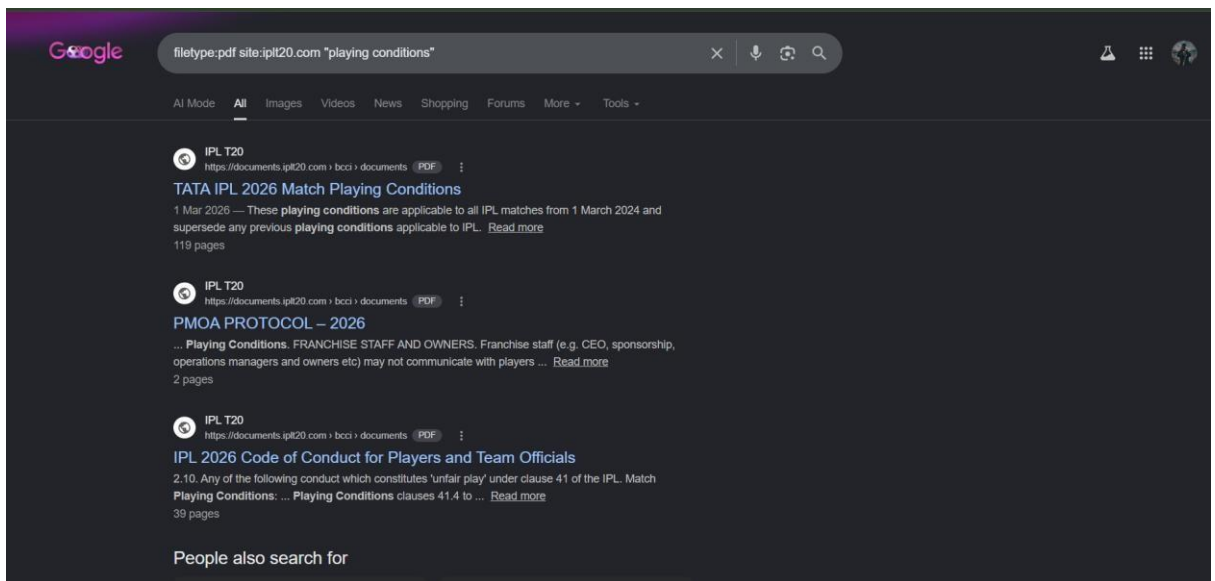

TOPS TECH Task 5 (CS)

➤ Rules and Regulations Chapter One – BCCI (PDF)

<https://documents.bcci.tv/documents/cms/documents/5d8f55789967c-Constitution-Chhattisgarh.pdf>

Observation:

- The search results revealed official IPL playing condition documents in PDF format. These documents contain information regarding match conduct, player regulations, equipment standards, umpire responsibilities, and fair play guidelines.
- ⇒ Google search operators can effectively locate publicly accessible documents. In this task, Google Dorking was successfully used to identify official IPL rule-related PDF files without accessing any restricted information.

TOPS TECH Task 5 (CS)

2. Search for login pages of Zomato by using Google dorking techniques. Write the search query you used and explain why it works.

Hint: Try using 'inurl:login site:zomato.com'.

Ans:

Search for login pages of Zomato using Google dorking techniques.

Objective:

- To identify publicly indexed login pages associated with the Zomato domain using Google search operators.

Google Search Query Used:

- site:zomato.com "login"

⇒ The operator site:zomato.com restricts the search results to the Zomato domain only, while the keyword "login" searches for pages containing the term "login". This combination helps identify publicly indexed login-related pages within the Zomato website.

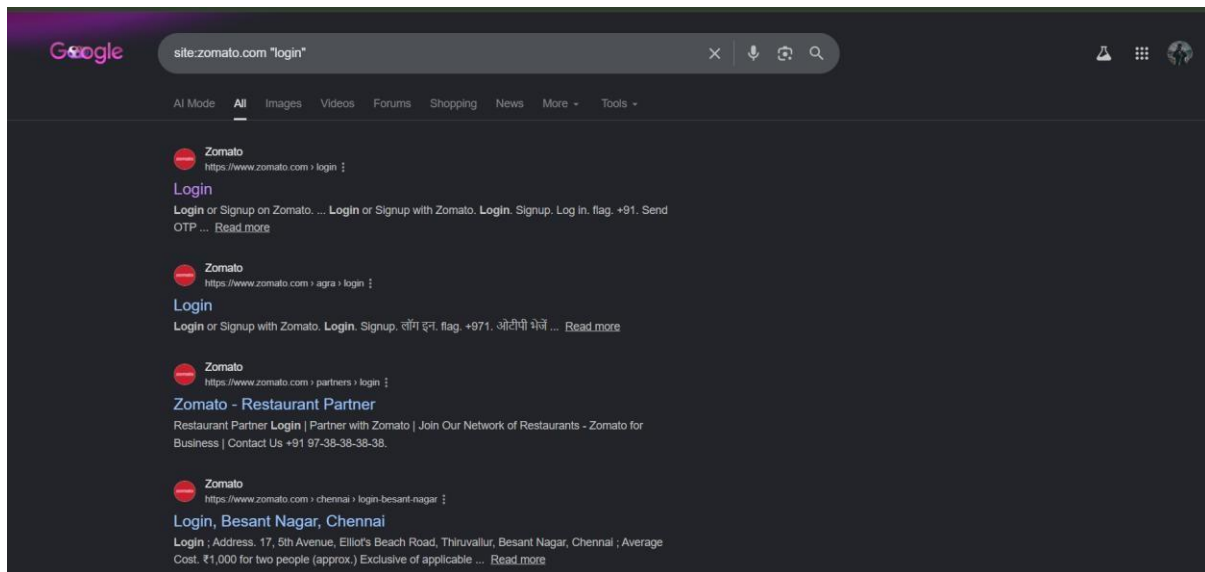

URL:

- <https://www.zomato.com/login>

⇒ Google indexes publicly accessible web pages. The site: operator restricts the search results to a specific domain, while the keyword "login" helps identify pages related to user authentication. Therefore, this query efficiently locates login-related pages belonging to Zomato.

⇒ The search successfully identified a Zomato login page that was publicly indexed by Google.

TOPS TECH Task 5 (CS)

3. Find exposed Excel files containing the word 'playlist' from Spotify-related domains using Google hacking methods. Share your search query and one result (URL) you found.

Ans:

Find exposed Excel files containing the word "playlist" from Spotify-related domains using Google hacking methods.

Objective:

- To identify publicly accessible Excel files related to Spotify that contain the keyword "playlist" using Google search operators.

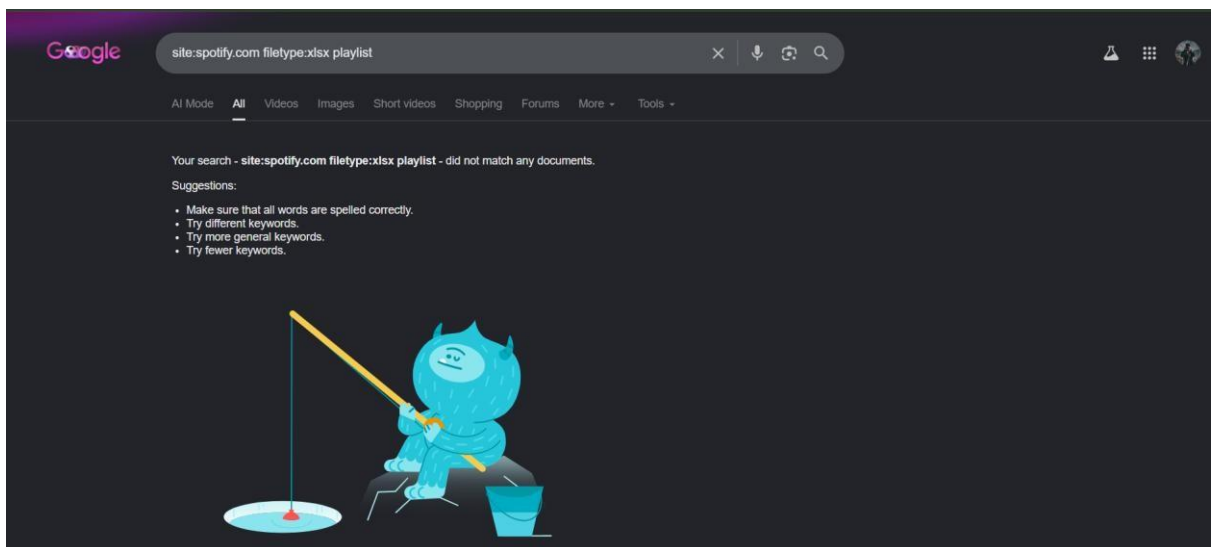

Google Search Query Used:

→ site:spotify.com filetype:xlsx playlist

- ⇒ The operator site:spotify.com restricts the search to Spotify-related domains. The operator filetype:xlsx filters the results to Microsoft Excel files only, and the keyword playlist helps identify files related to playlists.
- ⇒ No publicly indexed Excel files matching the specified criteria were found at the time of testing.

TOPS TECH Task 5 (CS)

- ⇒ Google Dorking relies on information that has been indexed by search engines. If a website restricts indexing of certain file types or if no matching files exist, relevant results may not appear.
- ⇒ The absence of results indicates that no publicly accessible Excel files matching the search criteria were indexed by Google during the time of testing. Google Dorking should always be used responsibly and ethically.

4. Identify possible exposed admin panels for any Indian e-commerce site (like Flipkart or Myntra) using Google hacking. Write the dork you used and explain what makes such panels risky if left open.

Hint: Use 'intitle:admin site:flipkart.com' or similar.

Ans:

Identify possible exposed admin panels for Indian e-commerce sites using Google hacking methods.

Objective:

- To identify publicly indexed admin panel pages associated with Indian e-commerce websites using Google search operators.

TOPS TECH Task 5 (CS)

Query:

→ intitle:admin site:flipkart.com

- ⇒ The operator intitle:admin searches for web pages that contain the word "admin" in their title. The operator site:flipkart.com restricts the search results to the Flipkart domain only. This combination helps identify publicly indexed admin-related pages.
- ⇒ Google indexes publicly accessible web pages. By using the intitle: operator with a specific domain, it is possible to identify pages that may be related to administrative interfaces.
- ⇒ The search identified a publicly indexed admin-related page associated with the specified domain.
